EDUCATION

- Bennett University, The Times Group** Greater Noida, India
 - B.Tech – Computer Science and Engineering (Specialization in Cloud Computing); CGPA: 8.98* 2024 - 2028
 - Relevant Courses:** Data Structures, Analysis of Algorithms, Design of Cloud Architectural Solutions, React, Database Management System

SKILLS SUMMARY

- Languages:** Python, C++, SQL, HTML, CSS
- Frontend:** React.js, Three.js, Responsive UI Design
- Cloud:** AWS (S3, Lambda, DynamoDB, SQS, Cognito, Elastic Beanstalk, API Gateway, CloudWatch)
- Backend & Databases:** REST APIs, MySQL, DBMS, Spring Boot (Basics)
- Tools:** Git, GitHub, IntelliJ IDEA
- CS Fundamentals:** Data Structures & Algorithms, Operating Systems, Computer Networks
- Leadership: President** – CodeChef Chapter (Organized 10+ events, 1000+ participants), Team Coordination, Event Management, Public Speaking

EXPERIENCE

- Indian Institute of Technology Kanpur** Kanpur, India
 - Software Development and Research Analytics Intern View Certificate* June 2026 – August 2026
 - Web Development:** Re-engineered the DoRA Giveaway Portal, restructuring component architecture and integrating RESTful APIs to streamline donor registration and improve UI responsiveness.
 - Data Dashboards:** Architected real-time analytical dashboards using JavaScript and the Fetch API, consuming REST endpoints to enable live CSR data tracking and automated Excel report generation.
 - Data Analysis & Strategy:** Conducted quantitative analysis of CSR performance metrics, transforming data into actionable insights while co-authoring 7 infrastructure-focused project proposals, translating research and stakeholder requirements into actionable development initiatives.
- Steel Authority of India Limited (SAIL) - Bokaro Steel Plant** Bokaro, India
 - Project Intern View Certificate* July 2026 - August 2026
 - NLP-Based Hazard Classification:** Built a TF-IDF and Logistic Regression pipeline classifying incident reports across 6 hazard categories in real time, reporting directly to the Chief General Manager (CGM) of Bokaro Steel Plant.
 - Safety Audit Platform:** Developed a Flask-based reporting system with automated ticket generation, severity-based emergency alerts, and a dashboard for tracking and resolving plant-wide incidents.
 - Process Digitization:** Replaced manual incident-sorting workflows with an automated triage system, cutting reporting overhead across departments.
- President - CodeChef Chapter, Bennett University**
 - Leadership and Technical Community Management View Certificate* August 2025 – May 2026
 - Event Management:** Led and organized 10+ coding contests and technical events with over 1000+ cumulative participants.
 - Operations:** Managed core team operations, event coordination, sponsorships, and marketing outreach.

PROJECTS

- VoteSamvidhan:** VoteSamvidhan combines blockchain-backed election integrity with constitutional literacy, enabling secure digital voting, transparent vote verification, constituency management, real-time dashboards, and comparative insights into global electoral systems to promote informed democratic participation. Live Project
- SkySentinel:** SkySentinel is a space situational awareness platform that monitors, visualizes, and predicts risks in Earth's orbit. Built with React, TypeScript, Tailwind CSS, CesiumJS, Three.js, and Flask, it integrates live TLE data to provide real-time satellite tracking, collision prediction, space weather insights, and interactive analytics dashboards. Live Project
- Tribe:** Centralized campus clubs and events platform using React for the frontend, a structured backend with database integration, and light AI features to improve event discovery, calendar-based planning, and streamlined management for students and club leaders. Live Project

ACHIEVEMENTS

- Academic Excellence:** Secured a CGPA of **8.6**, ranking among the top academic performers in the batch.
- Prestigious Leadership Position:** Elected as **President of CodeChef Bennett University Chapter**, demonstrating leadership, technical excellence and fostering a strong coding culture on campus.
- Community Impact:** Led and organized **10+ technical events with 1000+ cumulative participants** as President of CodeChef Chapter.
- Community Contribution:** Volunteered as Event Organizer at Zenevia and Tech Supervisor at Hackaccino, managing technical operations and logistics for large-scale university events.
